

## BARRIER® Surgical mask

## EXTRA PROTECTION

- 4-layer splash-resistant design
- >98% bacterial filtration efficiency
- Extra long tie bands
- EN14683:2005, type IIR
- Dispenser system supports efficient handling
- Visors protect from splashes
- Soft inner comfort layer
- Anti-fogging
- Cup Keeper reduces contact with mouth
- Ear-loops
- Tie-band

Proposed use: Wet surgery, when there is risk of splashes.

### BARRIER® Surgical masks will help you treat more patients to better care

All BARRIER products from Mölnlycke Health Care are designed to offer the optimal combination of protection, functionality and comfort. Our innovative and procedure specific solutions come complete with logistic advantages and expert training and support. These elements together will create a ripple effect of savings in time, effort and costs - helping you treat more patients to better care.
