NEW Aura™ Urostomy

Aura™ Urostomy – our kindest pouch yet

More freedom to live life with a stoma

New Aura™ Urostomy features several innovations designed to give you the confidence and freedom to live life to the full.

- Compact design in a range of sizes to suit you
- Flexible, tapered flange that cuts up to 55mm
- Fast, simple fitting and removal

New Aura™ Urostomy pouches offer a comfortable, secure and discreet fit.

Manuka honey

One of the key new features of the Aura™ range is the introduction of medical grade **Manuka honey** to our skin-friendly Hyperflex® hydrocolloid. The inclusion of Manuka honey in our Hyperflex® hydrocolloid may help to promote healthy skin around the stoma.

- Unique HyperFlex® hydrocolloid flange with medical grade Manuka honey
- Discreet, easy-to-use soft tap
- Non-return safety valve prevents backflow of urine
- Easy-to-read flange cutting guide
- Super soft, water-repellent cover
- Choice of beige or clear, in two sizes
- Soft tap that fits to any night drainage bag

Easy-to-read cutting guide

Aura™
with Manuka honey

Comfortable, protective and convenient

The benefits of Aura™ Urostomy

Super soft, water-repellent cover

- The super soft cover around the pouch offers exceptional comfort and softness against the skin, even during extended wear time
- Quick-drying fabric helps prevent perspiration build-up and makes life easier after bathing, showering or swimming
- A quiet film on the pouch minimises rustling
- The split back cover on beige pouch allows you to monitor stoma condition and output

page 3

Designed to give a comfortable and perfect fit

Fits snugly, protecting you

- Specifically designed to prevent leakage, the oval-shaped Hyperflex® hydrocolloid flange with Manuka honey is skin-friendly, satisfies adhesion and removal needs and is up to 22% larger than our previous flanges
- The thinner, more flexible outer edges of the tapered flange conform to the movement of the body whilst the thicker centre improves durability by being more resistant to breakdown by urine
- An improved cutting guide ensures a perfect fit around different stoma sizes and shapes, reducing skin irritation and potential leakage

"It was great tucked out of the way, not sticky in your groin, very comfortable, nice and easy to use,"
– IHT, Stockport.

page 4

Maximum security and discretion

Improved, easy-to-use soft tap

- Soft tap allows easy control of urine and makes pouch emptying quick and simple
- Non-return safety valve prevents backflow of urine
- Easy to open and close
- No uncomfortable sharp edges

Discreet

- The soft tap can be folded into an improved tap pocket located inside the pouch
- Effectively reduces pouch profile, improving discretion and comfort
- Universal fit to all night drainage bags
