———— Clinical Disposables Range ————

The Fannin business is focussed on providing quality products and value added services that support the rapidly changing requirements of the healthcare sector.

Clinicians are looking for customised clinical solutions, cost savings and improved product availability. All of this is needed to deliver better services and quicker healing outcomes for their patients. Being one of the most established healthcare distributors in Ireland, Fannin is able to offer all of the above together with excellent services.

The Fannin range of non-sterile disposable products has been produced to the highest specifications, thereby ensuring that healthcare workers and patients are as comfortable as possible in every situation.

Working with Fannin, customers will receive quality products which are competitively priced and supported by an established company and team. Fannin is well placed to provide a strong partnership to support your organisation and its needs well into the future.
