Performance Health Story

Headquartered in Akron, Ohio USA, Performance Health is a leading designer, manufacturer and marketer of branded rehabilitation and wellness products sold into a variety of U.S. clinical markets, through leading national retailers and in over one hundred countries through a multi-national network of distribution partners. Our Company's product offering includes an innovative and broad range of rehabilitation and wellness products, including progressive resistance bands, tubing, exercise balls, hand exercisers, stability trainers and a number of other specialty products and market-leading topical analgesics. In addition, we formulate and manufacture a variety of highly engineered products primarily for dental and specialty healthcare applications. Performance Health markets its diverse product offering under the well-known and highly recognized TheraBand®, Biofreeze®, TheraPearl®, Cramer®, Bon Vital®, Perform®, and Hygenic® brand names.

A trusted partner offering health & wellness solutions for a better quality of life.

Performance Health has a long history as a pioneer in the rehabilitation and wellness market, having developed innovative products that serve as benchmarks for their respective categories and setting the standard in clinical efficacy, quality and performance. Our products are the brands of choice among rehabilitation and wellness professionals and are commonly incorporated into patient care protocols.

Performance Health develops products that help people manage their pain, restore their strength and improve their overall condition and health. Our commitment to clinical professionals includes practice-building support, evidence-based protocols, clinical and product education, turn-key dispensing and pain management solutions appropriate for rehabilitation, massage, podiatric, performance and wellness practitioners. Our core brands work together to promote the four components of an active lifestyle: Flexibility, Strength, Balance and Cardio. Together, they enable a return to activity following injury, and a lifelong commitment to an active lifestyle.

As TheraBand® has grown worldwide, our facilities have expanded to better serve our global customers. Performance Health owns and operates two manufacturing facilities, located in Akron, Ohio and Ipoh, Malaysia, that manufacture all TheraBand® products. Each facility is ISO 9000:2008 certified and approved to manufacture products according to specific FDA and Quality System Regulation (QSR) guidelines. The TheraBand® products are distributed to customers around the world from Akron, Ohio USA, Tilburg, in The Netherlands and Ipoh, Malaysia to our customers in the Asia Pacific area. In addition, Performance Health Customer Service is located in Athens, Greece and Akron, Ohio USA.

Band Loop resistance is aligned with the resistance level of a regular band tied into a loop.
*Caution: These products contain natural rubber latex which may cause allergic reactions.

NON-LATEX* ELASTIC RESISTANCE

Non-Latex* - Identical Performance to Latex

- Many patients who react to certain proteins found in natural rubber latex must avoid latex bands.
- Unfortunately, most non-latex* elastic resistance bands do not offer the same performance as latex bands without the potential for causing a latex allergy reaction.
- Thera-Band® Non-Latex* Professional Resistance Bands provide the same quality and trusted resistance progression of our natural latex bands... they stretch like latex!
- Thera-Band® Non-Latex* bands do not have a scent, powder or proteins.
- Thera-Band® Non-Latex* Professional Resistance Bands match the pull forces of our latex bands, and they follow the TheraBand® color-coded System of Progressive Resistance®.

Non-Latex* Professional Resistance Bands - Economical bulk rolls that facilitate cutting band length to patient requirement.

TRAINING STATIONS

Ultra Compact and Affordable Options

21910 ●●●●● TheraBand® Wall Station is the first compact, total body rehabilitation system designed for in-clinic strength training.

- Features the familiar colors and resistance levels of resistance tubing. Includes 30.5 cm (12") Tubing in four progressive levels.
- Multidimensional design with three planes of movement.
- Comprehensive accessory package including Exercise Handles, Extremity Straps and Head Strap.
- Two full-color exercise posters.

21900 ●●●●● TheraBand® Professional Exercise Station combines strength, balance and flexibility exercises into one convenient system for fitness and therapy.

- Integrates with Exercise Balls and Stability Trainers.
- Includes Resistance Tubing in three progressive levels and three lengths.
- Supplied with a 91.5 cm (36") Padded Exercise Bar, two Exercise Handles, two Assist™ Straps, and a full-color poster with 24 exercises and safety instructions.
- At approximately 6.5 kilograms (14 pounds), the base is lightweight and stackable.

The color sequence links the Station to your home exercise product recommendations.

Versatile In-Clinic Hub, Home Exercise Success

21915 ●●●●● Rehab & Wellness Station enables easy transitions between clinic visits and home exercise programs.

Station includes:

- Multi-dimensional wall mount system that provides three planes of movement with slide tracks, position indicators and one-hand lock down to enable easy patient set up, charting and documentation
- Portable base system with six connection points
- Trusted Resistance Tubing in four progressive levels and three lengths
- Three Pro Series SCP® Exercise Balls (Yellow, Green, Red)
- Two sets of Stability Trainers (Green, Blue)
- A complete accessory kit, including Waist Belt, Assist Straps (2), Head Strap, Exercise Bar, Extremity Straps (2), Exercise Handles (2) and an Accessory Rack
- Exercise CD with ready-to-use printouts and directions for at-home exercise programs
- Four full-color exercise wall posters
- Educational video with system introduction and exercise illustration

ACCESSORIES

Tubing Accessories

Include CE Mark.

22130 Door Anchor –

Used to secure bands or tubing for upper and lower body workouts. Can be secured at any point along the frame of a standard door, offering versatile anchoring options.

22010 Assist™ Strap –

Increases the range of exercises that can be performed with bands and tubing. One end loops around an extremity, while the band/tubing is attached to the other end. This allows users with poor grip strength, like victims of arthritis, to use bands and tubing in training and rehab programs.

22135 Accessories Kit (Retail Display Box) –

Includes a Door Anchor, an Assist Strap and two Exercise Handles.

22125 Sports Handle –

30.5 cm (12”) long and allows for two hands to grasp the handle easily.

22120 Exercise Handles (pair of two) –

Provide an easy, secure grip for bands or tubing.

22140 Extremity Strap –

Cuff wraps around an extremity to serve as an attachment point, while the cinching mechanism is used to secure the cuff to a band or to tubing.

Training Station Accessories

Training Station Accessories are compatible with the Rehab & Wellness Station, Exercise Station, Wall Station or other exercises.

Exercise Ball Accessories

23210 Power Pump - An essential tool for achieving and maintaining proper exercise ball inflation. Most clinics use hard-to-use ball pumps. This one is easy!

23230 Exercise Ball Stackers - Set of three. Simplifies storage of inflated balls.

BALANCE PLATFORMS

One Balance System for All Patient Needs

Have you seen the evidence lately about the effectiveness of balance boards and foam surfaces? Unstable surfaces are leading to unwavering results—reduced risk of sports-specific injuries, increased core strength, improved muscle reaction times, decreased risk of falls, improved gait and mobility, increased proprioception, and more. TheraBand® stability products, designed for people of all fitness levels, are the best solutions on the market for sports performance enhancement, balance training and rehabilitation. If your patients aren't receiving the benefits of sensorimotor and proprioceptive training, we have a simple, proven package to increase your breadth and effectiveness. We've put together the exercises, the products and the protocols you need. Our complete line of stability products follows the System of Trusted Progressive Exercise, enabling you to help patients advance effectively through different levels. We make effective balance training simple. Balance products include both soft stability tools (Stability Trainers and Stability Disc) and rigid stability tools (Rocker Board and Wobble Board). Their durable, lightweight construction makes all of these products user-friendly, but their benefits extend much deeper than the surface. Includes CE Mark.

TheraBand® Stability Trainers are oval-shaped, color-coded pads supplied in three densities to provide a progressive system of balance training for rehab, post-rehab conditioning and fitness applications. The Green (Firm, Beginner) and Blue (Soft, Intermediate) pads are molded in closed-cell foam with a ridged surface. The Black (Extra-Soft, Advanced) PVC pad is inflated with air and has rounded points that provide tactile stimulation on one side. The Black Stability Trainer has sturdy edges that help prevent ankle-roll—a differentiator in the air-filled balance product marketplace.

THERABAND® System of Progressive Exercise

Stability Trainer

23305	Beginner	● Green, Firm
23304	Intermediate	● Blue, Soft
23307	Beginner	● Green, Firm (Set of 2)
23306	Intermediate	● Blue, Soft (Set of 2)
23323	Advanced	● Black, Extra-Soft
12424	Advanced	● Black, Extra-Soft (Individually Boxed for Retail)

TheraBand® Rocker and Wobble Boards comprise the rigid stability line and embody the higher end of the system of progressive balance training. Unlike many competitors' products, they are durable and lightweight. Made of molded plastic, the square Rocker Board and round Wobble Board also offer security and versatility in the form of an anti-slip bottom and a textured top for additional proprioceptive input.

- 23300 Rocker Board ● Black, Challenging
- 23301 Wobble Board ● Black, Very Challenging

The **TheraBand® Stability Disc** is more challenging than the TheraBand® Stability Trainers. The 33 cm (13") diameter Disc offers an unstable, sensory-stimulating surface designed to facilitate balance and proprioceptive training, as well as automatic postural reactions. The Stability Disc is also ideal for active sitting.

- 23303 Stability Disc ● Silver, Active Sitting/Advanced Sports Training

TheraBand® Dynamic Ball Cushions are usable as a balance trainer, dynamic seat cushion or universal trainings tool. The XL-Version offers various training opportunities in all body positions. Dynamic Ball Cushions offer an unstable and sensory stimulating surface designed to facilitate balance and proprioceptive training.

Dynamic Ball Cushions (Europe Only)

ACTIVE HEALTH

27150 The First Step to Active Health® kit is your older patient's first step towards physical activity. Designed specifically for adults over 50, it is the most comprehensive, customizable and progressive activity program available for able-bodied yet inactive older adults. It contains a Red Exercise Band and an evidence-based exercise program focusing on improving cardio fitness, flexibility, strength and balance. A free companion guide, The Active Aging Toolkit, explains the scientific foundation for the interventions, tools to assess and individualize activity programs, and strategies to encourage older adults to become more active. For more information, visit www.FirstStepToActiveHealth.com.
