## GET MORE FROM YOUR RACK SYSTEM

### HIGH-LEVEL CONNECTIVITY

Secure communication with the hospital IT system is provided using cost-effective web embedded software.

Link+ Agilia works with standardized communication protocols, ensuring seamless IT integration.

Standard high-speed Ethernet network compatibility maximises your existing IT investment.

Connection options include both Network and Serial Interface.

### MORE safety

Central display of the IV pumps and Link+ Agilia status is a safety enhancement of the new user-centred design.

Easy-to-clean design ensures better disinfection.

Connected to your Nurse Call System, Link+ Agilia saves you time.

### MORE convenience

Link+ Agilia stacks, powers and centralises data for 4, 6 or 8 Agilia IV Infusion pumps and reduces the number of power cables to one.

IV pump installation and removal are easy on the Link+ Agilia.

### MORE efficiency

Captures and stores infusion data automatically in your hospital IT system.

The central alarm display is visible 360° from a distance.
