

## ACCUCUFF™ Cuff Pressure Indicator

Representing a significant advance in cuff pressure monitoring, the AccuCuff™ Cuff Pressure Indicator is one of our most innovative intubation safety devices.

- Continuous visual display eliminates the need for constant spot-checking and reduces the risk of Post-Ventilation Pneumonia
- Negative pressure graduation ensures cuff is fully deflated, reducing the risk of trauma during removal
- Lightweight device reduces drag and potential tube displacement
- Suitable for use on a wide range of airway devices extending usage into many clinical areas
- Simple design for ease of use

Tracheal Cuff Pressure Indicator  
20-29cm H<sub>2</sub>O

Paediatric Tracheal Cuff Pressure  
Indicator 10-20cm H<sub>2</sub>O

- Pressure can be quickly and easily adjusted, avoiding excessive cuff inflation
- Individually packaged
- MRI compatible
- Single Use
- Latex Free
- 5 year shelf life allows long term storage and reduces waste
- Colour-coded AccuCuff™ Cuff Pressure Indicators

## Ordering details

Product code	Product description	Units per box
AC0100B	AccuCuff™ Tracheal Cuff Pressure Indicator, Luer Lock (Blue)	50
AC0100P	AccuCuff™ Paediatric Tracheal Cuff Pressure Indicator, Luer Lock (Pink)	50
