

CUFF-SAFE®

Endotracheal tubes

Cuff-Safe® endotracheal tubes supplied with AccuCuff™ Cuff Pressure Indicator

- Supplied with AccuCuff™ Cuff Pressure Indicator
- AccuCuff™ allows for continuous visual monitoring of cuff pressure, eliminating the need for regular spot-checking
- Negative pressure graduation on the AccuCuff™ indicates when the cuff is fully deflated, reducing the risk of trauma during removal
- Extensive range of standard, reinforced and preformed cuffed tubes available
- Manufactured from transparent PVC
- Tracheal Cuff Pressure Indicator 20-29cm H₂O
- High Volume, Low Pressure Cuff
- Clear connector – EGBAT compliant
- Murphy Eye
- Single Use
- Latex Free
- DEHP Free
- 5-year shelf life allows long term storage and reduces waste

Tracheal Cuff Pressure Indicator 20-29cm H₂O

High Volume, Low Pressure Cuffs

High quality ISO connectors
