

Sterisets® Pre-filled Saline Syringes

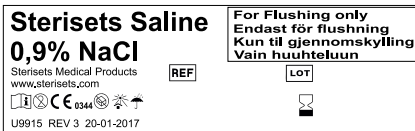

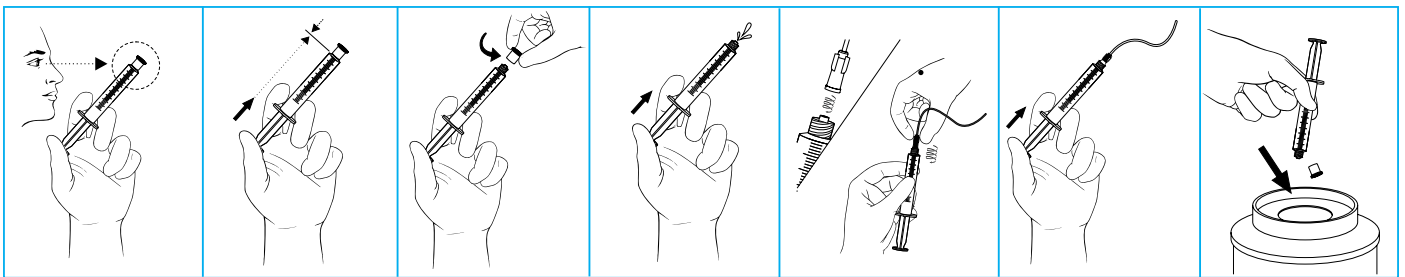

- Easy to use
- Clear labelling
- Sterile packaging
- Cost effective
- Bar coded
- Anti reflux

Sterisets® Pre-filled Saline Syringes

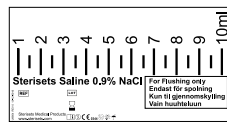

Sterisets® is well known in the medical device industry. With the experience of using pre-filled syringes for many years, Sterisets has developed a new production line for the pre-filled syringes. The whole process is performed in a cleanroom ISO 5 environment and is fully automated. All the syringes are terminally sterilised for clinical usage.

The colour(s) of the Closure Cap and Label identify the volume of the Saline, which helps the employee identify the products more easily.

Clean label for syringe with pre-printed graduation

Clean label with graduation for non-printed syringe

Bar coding EAN 13 on pouch

Bar coding EAN 128 on boxes

Easy peel closure

Colour coded label for easy recognition

Each inner box contains clear instructions for use
