

SunStim™ Pro

The SunStim™ Pro Peripheral Nerve Stimulator delivers reliable, adjustable current in one-second twitch pulses – it features a built-in train of four with four pulses per two seconds. This deluxe nerve stimulator, ergonomically designed with a digital screen for quick visual assessment of functionality, comes complete with a removable silicone case, ball electrodes, 9V battery and 6' lead wires with alligator clips, as well as an instruction manual.

SunStim™ Pro (8-1053-63)

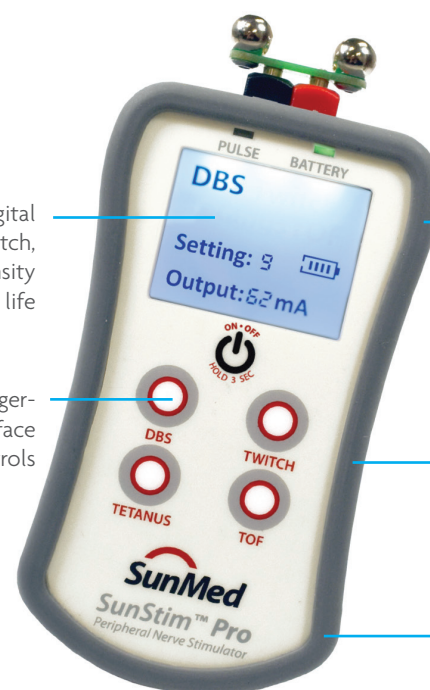

- Double burst: Two 60-ms bursts of 50 Hz separated by 0.75s
- Twitch: 1 pulse per second
- Tetanus: 50 Hz (50 pulses/s) or 100 Hz (100 pulses/s)
- Built-in train of four: 4 pulses in a period of 2 seconds
- Stimulus pulse: square wave monophasic pulses (200-μs duration)

Colourful Silicone Pro Wrap available in 9 colours to personalise and protect your device

Easy-to-read illuminated digital screen displays DBS, Twitch, Tetanus, TOF, current intensity and battery life

Clearly visible, finger-actuated front face membrane controls

Side switch to increase and decrease level of stimulation

Ergonomic, compact shape fits comfortably in hand

Removable silicone wrap enhances grip, helps protect device and comes in a variety of colours
