

VommaxTM

Simple to use &
effective vomit bag

Vommax[®] is the ideal replacement for the traditional disposable bowl and kidney dish, designed to support effective containment and reduce the risk of spills.

- Clear/translucent bag supports easier visual assessment of contents
- Rigid mouthpiece designed to fit comfortably over the patient's mouth
- Twist-and-seal closure for hygienic, odour-controlled disposal
- Graduated markings for approximate volume assessment
- Compact alternative to traditional bowls and kidney dishes
